Ala desk

Ala desk comes in two sizes, in solid birch or oak. Top in birch, oak, limestone or black granite. The small desk has one drawer and the large has two. The drawers have inlaid stainless steel handle.

Our birch products are treated with oil that has white pigment added and our oak products are treated with standard oil. There are also other surface treatments available, such as other oils and soft soap, at additional cost.

The limestone tops are treated with soft soap, which seals the surface and keeps the light characteristics of the Gotlandic stone. This treatment protects well against stains if the surface is wiped clean quickly. All limestone contains fossils, small chips and pores that can be spotted.

Design: Kristian Eriksson
