

Ferry Chairs pp 62 / pp 52 Design Hans J. Wegner 1975

We only sell original Hans J. Wegner designs made by PP Møbler in Denmark.

pp 62 & pp 52 Hans J. Wegner 1975.

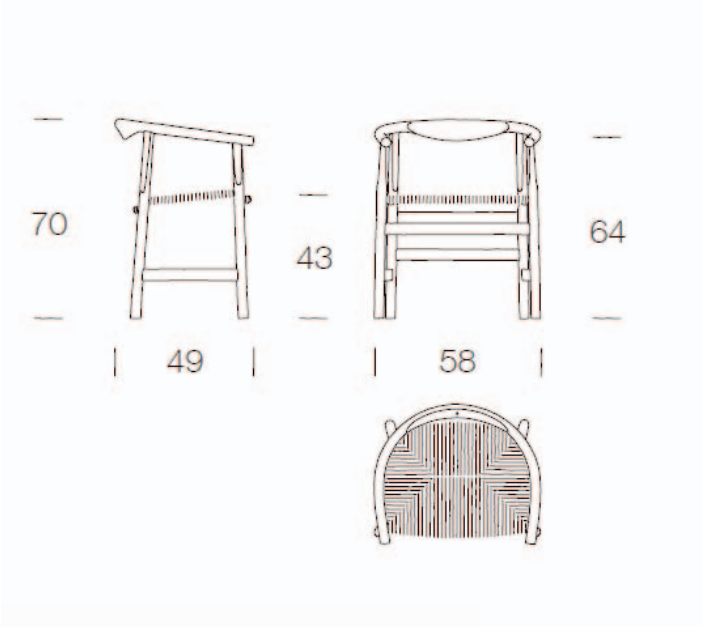

This chair was not designed with ferries in mind but in 1978 more than 800 special versions of the pp52 chair were sold for use on the DFDS ferry 'Dana Anglia' sailing between Denmark and England.

In 1982, a customer turned up with one of the chairs made for the ferry with its seat missing. Obviously lost at sea, he found it one morning on a beach on the west coast of Denmark. The customer got a new seat. The chair itself was completely intact.

More than 30 years after the ferry's maiden voyage the chairs have remained on board.

"The way in which a user experiences a chair or any other product, the exact places of contact, is decisive".

Hans J. Wegner.
